

Fall 2018 Coalition for Physician Enhancement (CPE) Meeting

October 29-30, 2018
Mason and Rook Hotel
Washington, DC

Beyond Medical Knowledge and Expertise:
Challenges of assessing physicians across competencies

Learning Objectives

At the end of this program, participants will be able to:

- Discuss and debate the importance of the competencies other than medical expert/knowledge to overall physician performance (i.e., how much do they matter in determining safety to practice?)
- Describe the tools that are available and appropriate for evaluating specific competencies.
- Share and compare experiences and strategies of assessing competencies for which tools are lacking.
- Explain the challenges and opportunities associated with remediation in these “difficult to assess” competencies.

IMPORTANT: Due to space limitations, registration for this meeting is been capped at 45!
