Spring 2020 Coalition for Physician Enhancement (CPE) Meeting

April 27-28, 2020
Kona Kai Resort
1551 Shelter Island Drive, San Diego

Life After Assessment: Challenges with Physician Follow-up, Support & Recidivism

Educational Objectives: During this meeting, participants will ......

1. Identify the challenges associated with the post-assessment physician follow-up, including: who is responsible for follow-up, what can we do to support physicians, and what data we should be gathering to collectively understand if our programs are effective.
2. Learn from the feedback of those who "use" assessment programs to understand what they do to support physicians post-assessment, where the gaps lie in physician support, and what assessment programs can do to assist.
3. Discuss recidivism in terms of how frequently it occurs, the characteristics of physicians who require repeated assessments, potential strategies for prevention of recidivism, and improved monitoring for physicians at risk of recidivism.
